

HOW THE THREE CART SYSTEM WORKS

Refuse Cart: Brown Lid

This Brown Lid Cart is collected at the curb every week on your regular schedule collection day. Service days may be subject to change and customers will be notified in advance.

Placement of all carts at the curb is essential to insure collection by automated trucks. Place your trash cart on either side of your driveway, at the edge of the curb. Allow a minimum of three feet of clearance on all sides of the cart from objects such as trees, fences, mailboxes, streetlights and other carts. Carts must be a minimum of six feet from any vehicles. Position your carts in a manner so that pedestrians can use sidewalk.

Recyclables Cart: Blue Lid

You can do your part to help save landfill space, preserve natural resources, and conserve energy by participating. Put your recyclables cart in a convenient location and use it every day. Make the recycling lifestyle a part of your household.

Recycling is easy with this collection system. Just fill your Blue Lid Cart with the acceptable materials listed. Place this cart at the curb every other week along with your refuse cart collection. Your recyclables (Blue Lid Cart) will be collected on those days marked blue in your Magnetic Calendar.
